To: DOT_STIP@dot.state.ak.us

To Whom It May Concern,

Now that the Congress has lifted the mandate to use \$450 million in transportation funds for the Knick Arm and Gravina Bridges, the State has an opportunity to make our existing roadways safer, smoother, and less congested by reinserting funding for these vital projects. Please, "Fix It First!" and use this money on the 385 transportation projects that the DOT has previously proposed. These projects range from reconstructing major highways and airstrips in remote communities to providing safe sidewalks for children to walk to school.

Thank you,

Mrs. Katherine McLaughlin
Chenega Bay, AK
